

Sogakope/Ada Packages

Intro to the Areas;

Sogakope is a village that's runs through to the River Volta. Sogakope is well known for the Volta Bridge, bird watching, culture activities, natural water falls, artifacts and historic sites.

Ada is a town in eastern Ghana, lying on the Atlantic Ocean coast east of Accra, on the estuary of the River Volta. It is known for its beaches and for water sports and consists of three widely separated settlements: Big Ada, Ada Foah and Ada Kasseh.

Ada is a sleepy fishing village on the estuary where the River Volta meets the Gulf of Guinea (the Atlantic Ocean). It is less than a two hour drive from Accra, so it makes for an ideal weekend getaway from the 'big city'. If you stay in one of the many tourist resorts along the beach, you can wake up in the morning to the sights and sounds of rows of fishermen heaving in large "net-fulls" of tiny fish from the surf. It literally takes a whole village to heave in the nets, and this is quite a sight to see. Also recommended is a walk around town, where you can find larger fish, shellfish and crabs for sale. A tasty bouillabasse cooked slowly on a campfire is ideal at sunset. Many of the cooks in the village can also cook your catch for you, as you sip on a beer.

You can rent a sailboat along the river during the day from the Ada Sailing Club (they will let you take the boat out even if you dont know how to sail... although this is dangerous!). You can also take fishing lessons, go wake skate boarding and enjoy Jet Ski rides with professional guides.

The Crocodile Village

The Dwarf Island

The Crab Island

A trip to the estuary would give you a treasured experience of one of nature's amazing wonders where the River Volta makes love to the Atlantic!
